Company Communication

A powerful raw materials company emerges

We are pleased to inform you about a **powerful further development** of our company.

As of **January 1, 2022**, the raw material departments of the Pakka Group (Switzerland), Bio Partner (Switzerland) and EcorNaturaSi (Italy) in cooperation with Bio Development (Switzerland) will create a new raw materials trading company called BIODINA SA. The company specializes in raw materials that are grown organically and traded fair:

- Nuts, pulses and seeds
- Dried fruits
- Fruits and vegetables (frozen and processed)
- Sweeteners and complementary assortment

As a spin-off into a joint company, BIODINA bundles the competencies and thereby strengthens the global origin projects of the companies involved. Through this bundling, the farmers in the origin are supported even more directly, the product range is expanded and the availability of the high-quality raw materials is secured in the long term.

BIODINA sees itself as a **bridge builder** between the farmers and the sales markets in Europe. These direct sources result in a high and responsible added value at the origin. For BIODINA's customers, this creates even more authenticity, differentiation and choice.

The company's address is:

Headquarter:
BIODINA SA
Wiesenstrasse 10A
CH-8952 Schlieren

German Headquarter:
BIODINA GmbH
Turmstrasse 11
DE-78467 Konstanz

Web: www.biodina.ch / info@biodina.ch
Phone: +41 44 54 109 00

Apart from the new company name and address, practically nothing will change for you.

The executive board consists of Daniel von Meißner (Chairman), Erol Bay (Purchasing) and Sebastian Apfelstädt (Sales).

We would like to thank you for our journey so far and we look forward to an even more fruitful future together.

Kind regards

Ernst Schütz

Chairman of the Supervisory Board
BIODINA SA

Daniel von Meißner

Chairman of the Executive Board
BIODINA SA
